WHO IS GEA SOLUTIONS

GEA Solutions Philosophy X Vision

Philosophy

The philosophy of our company symbolizes our will for a safer and healthier ecosystem for the entire human and food chain. To be the necessary partner for each of our customers, who with dedication in finding economical and practical solutions for the safety and protection of the workplace, and therefore of the employees, will lead us to a future with safer goods for man.

Our Vision

The vision of our company is to establish ourselves as one of the strongest companies in the field of food safety, human protection and health. This goal will be achieved through the continuous integration of new technologies in the whole range and depth of our services, which will ensure in a smooth, easy and reliable way the interconnection of our operations, with the purposes of our customers

OUR CERTIFICATIONS

ISO 22000 and M.D. 1348

Secure storage of raw materials for food and medical devices

Our company has been active since 2010 in the field of Warehousing and Transportation services (3PL Logistics) with the possibility of repackaging and processing.

The high standard facilities, the innovative equipment of the latest technology and the excellent specialization of our executives, offer us an advantage in safety, speed and economy.

The special licenses for storage and repackaging of dangerous chemicals, the certified storage of food and feed, according to the quality standard ISO 22000, the special certification on the requirements of M.D. 1348 for transport and storage of Medical devices and the modern storage spaces, constant temperature conditions, make us your most specialized and complete partner.

*Certifications are provided through a dedicated partner who is responsible for the whole supply chain procedure of our goods

SUMMARY OF PRODUCTS/SERVICES CATEGORIES

FOOD, DRINK AND WATER SAFETY CONTROL PRODUCTS

A wide range of products from the world's leading companies in the field of food, beverage and water safety at all stages of production, processing and transport, helping you to comply with even the most demanding ISO 22000 and HACCP safety protocols.

HUMAN CHAIN SAFETY PRODUCTS

Supply of products aimed at protecting human health, hygiene and safety. Solutions that create a feeling of safety and security for you, your staff, visitors, customers and partners when they are on your premises.

SUMMARY PRESENTATION OF PRODUCTS/SERVICES

COSMETIC DRUG CONTROL PRODUCTS

Our rapid allergen residue testing and microbiological tests ensure the absence of adverse reactions in pharmaceutical and cosmetic products.

PRODUCTS FOR DEFICIENCY PLANT PROTECTION

Rapid residue testing of chemical formulations, antibiotics, genetically modified products, and solutions for rapid pathogen control in plant materials through molecular techniques.

SUMMARY PRESENTATION OF PRODUCTS/SERVICES

LABORATORY EQUIPMENT

We provide laboratory equipment and consumables: Centrifuges, Lamineurs, Incubators, Photometers, Hygrometers, Viscometers, Refractometers, Salt meters, Acidity meters, Polari meters, Autoclave machines, Pipettes, Homogenizers, Cylinders Sampling kit, Brix Meter.

PRODUCTS FOR DEFICIENCY PLANT PROTECTION

innovative and certified solutions Food Analysis (control of mycotoxins, allergens, microbiological tests, "clean label" products, etc.), in order to meet the needs of this industry.

INDUSTRIES WE SUPPORT

SOLUTIONS BY INDUSTRY SECTOR

Food safety solutions for food industries. Specialized products for food and beverage companies

AGRICULTURAL PRODUCTION

Agricultural food safety quality control. Fruit, vegetables, wine, honey.

PASTA-MILLS - BAKERY

Food safety control of Bakery products. Mycotoxin detection, surface cleaning, allergen detection.

DELICATESSEN - SNACKS - CONFECTIONARY

Food safety control, Snacks, Confectionery. Clean label, tests, pesticide detection.

HO.RE.CA.

Food safety control in the HORECA sector. Surface cleanliness, tests, clean label.
